

**Brian Woudstra**, B.Sc.Eng  
*Business Development Engineer*

Our first employee, Brian joined StructureCraft Builders in 1998. During his tenure, Brian has gained extensive experience in timber design, connection engineering, cost estimating, structural detailing, shop drawing review and procurement of special materials. Using his wealth of practical knowledge about timber, coatings and details of construction he coordinates the preliminary designs, costing and modeling in collaboration with our engineers and project managers.

Brian has been involved in managing projects and structural design work for many notable complex timber structures. He works with clients, architects, engineers, general contractors, subcontractors and suppliers and is involved in every aspect of the project to ensure each finished structure meets the requirements of the customer.
