

Atlantic WoodWORKS!

List of Services

Project Design - Technical Advice & Consultation

- Preliminary design consultation to maximize cost savings or enhance building performance
- Product sourcing - structural and aesthetic wood products
- Suitable material selection for building application
- Structural, fire, seismic, acoustic, architectural and environmental consultation
- Interpretation of the building code.
- Technical literature and case studies on specific construction projects
- Environmental Product Declarations and Life cycle analysis of common wood products
- Available manuals and design tools

Promotion

- **Seasonal project showcase** of a construction project in the Wood Design and Building magazine that has a circulation of over 38,000 copies in North America. This is an opportunity for North American wide exposure.
- **Annual case study** of an Atlantic building project to promote wood use and encourage the design community to use wood in various construction projects.

**If you have any projects that you would like to submit for publishing evaluation contact us below:*

- **Wood Design Awards** - Submit your project nominations on our website for the biennial Atlantic WoodWORKS! Wood Design Awards. There is no fee to nominate a project and nominees receive a complimentary invitation to the awards ceremony. Winners will receive a commemorative trophy, extensive media exposure; and will have their project appear in North American Wood Design awards publication.

Free Professional Development/Liaison

- Continuing education credits for Engineers, Architects, Officials and Contractors
- Wood Design Seminars
- Lunch and Learns
- Building Tours

Demonstration Projects/Products/Research

- We have the ability to arrange full scale testing of new products and building systems.
