

NBBOA Maintenance Course 2018

The Rodd Miramichi River

April 25, 2018

Meet Our Maintenance Course Speakers

ORR BROWN
CONSULTING ENGINEERS LTD.

Recognizing Risk & Reducing Liability (April 25, 10am – 12 pm)

Alison Orr, P. Eng., CBCO

Alison Orr is a designated Consulting Engineer and a Certified Building Code Official in the province of Ontario. She is a member of the Building Code Commission. In 1999, Alison joined an engineering consulting firm investigating the collapse, failure and loss of serviceability of buildings as well as evaluating buildings damaged by fire, impact and weather events.

Marianne Brown, P. Eng., CBCO

Marianne Brown is a designated Consulting Engineer and a Certified Building Code Official in the province of Ontario. In 2007, Marianne joined an engineering consulting firm evaluating damaged buildings, bodily injury incidents and municipal liability claims.

In this session, participants will explore examples of municipal liability claims with respect to standard of care related to building inspections and plan examination.

**BUILDING
KNOWLEDGE**
CANADA INC.

Building Science & Energy Code Requirements (April 25, 1:30pm – 3:30pm)

Gord Cooke, P.Eng., President of Building Knowledge Canada Inc.

There are few professionals in Ontario that can match Gord Cooke's broad knowledge of the inner workings of a house. Highly regarded in the Ontario homebuilding industry, Gord is a professional engineer, trainer, author, and industry consultant. For over 25 years, Gord has helped builders and HVAC contractors implement innovative technologies and build better homes. He is an effective and passionate building science educator and advocate for better building practices and energy efficiency. **In this session, participants will learn how building science principles can be applied to most effectively optimize the application of the new energy code requirements. Examples will cover both new builds and renovations in existing homes.**
